

**MAIN DRIVEWAYS
IN NEW CEMETERY
ARE NOW PAVED**

Great Improvement Made at New Maysville Cemetery by Paving All Main Driveways—Lots Being Leveled.

The officers of the New Maysville Cemetery have just completed one of the biggest improvements made in our City of the Dead in years by paving all of the main driveways through the cemetery with concrete.

The work was done under the direction of Mr. W. H. Cox, who takes a special interest in seeing that the Maysville cemetery is as beautiful as the company's finances can make it.

The erection of new fence about the cemetery and the building of the very imposing entrance was only the beginning of a series of improvements in the minds of the officials of the company and the completion of those paved driveways is only another step in reaching the goal the officials have in mind.

The next step to be taken by the officials will probably be the building of a beautiful Chapel. The erection of this chapel the officials have had in mind for some time and they were anxious that it be erected this year but were unable to get the work done properly. It was postponed until next year and, so anxious are the officers of the company to get the building erected, that they expect to erect it themselves if they are unable to get the contractors on the job. This chapel will be erected on the beautiful site just east of the soldiers' and sailors' monument, which has been reserved for this very purpose. It will be for the use of all who desire to hold services at the cemetery.

Building of this system of paved driveways through the cemetery has added much to the beauty of the cemetery and they will be found to be a wonderful improvement in and weather.

City and county officials should now take some steps toward paving Carmel street and the Mt. Carmel Pike from the end of Carmel street to the cemetery entrance. The paving of this street and small stretch of roadway would give the public a paved driveway from the city direct to the grave side.

TEACHERS' EXAMINATIONS

**YOUTHFUL MUSICAL ARTIST
COMING ON CHAUTAUQUA**

Famous Music Composer Heads Musical Organization coming Here—Young Son Rated as Wonder.

Victor Herbert, Sousa, Creatore, Arthur Pryor and many other famous directors of world-renowned bands and orchestras make use of the compositions of A. D. Liefeld, who will come to us at the head of the Pittsburgh Ladies Orchestra. As a special feature with the orchestra will appear the wonderful boy Master Theodore Liefeld, who has won fame for himself as a trumpet soloist and spectacular trap drummer.

This organization will be an inspiration to all. It is encouraging to see how much a young artist as Master Liefeld has accomplished. He will appear both afternoon and evening playing with the orchestra, and giving demonstrations of his wonderful solo ability.

The press says, "The orchestra, directed by A. D. Liefeld, gave a program of popular appeal and played their selections with finesse that would demand the praise of the most severe of critics."

**DEATH THREAT PREVENTS
MOVE TO EXHUME BODY**

Governor May Be Asked to Investigate Case in Kentucky Hills of Death and Burial of Missing Woman.

Cincinnati, July 25.—Messengers sent recently to Webbville, Ky., by Carl Schuett, Jr., of the city, to investigate the death of a woman who had been identified as Mrs. Will Flescu, Cincinnati woman, were ordered to leave the vicinity by a mountaineer, who threatened to kill him if they did not desist in their efforts to have the body exhumed, Schuett declares.

Schuett says he married the woman at Batavia, Ohio, in October, 1917, but was told afterward that she had not been divorced from her first husband.

She disappeared fifteen months ago, he said, and recently he learned that she went to Kentucky with the man who a few days ago threatened to kill the Cincinnatians who tried to exhume the body.

Residents at Webbville said the woman committed suicide by taking poison tablets which were purchased in Cincinnati before she left this city.

The woman had been known only as "Anna May," during her stay in Jean, Ky., a little settlement near Webbville.

Schuett said he intended asking Governor Morrow of Kentucky, to investigate the affair.

Colonel Horace M. Taylor, of Carlisle, secretary of the Morgan's Men Reunion Association has made the announcement that the annual reunion of the association will be held at the Country Club, near Lexington, August 15 and 16, instead of August 10 and 11, as previously announced. Colonel Taylor is preparing an exceptionally fine program.

OUR POLICY:

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the county as a whole.

PARTY POLITICS IN COUNCIL

We are advised by an exchange that every year the Civic League of Cleveland, Ohio, gives the councilmen of that city the once-over and reports their faults and their merits. Among the merits the League credits to them in a recent report is this: "Party influence has not controlled Council action."

Our Cincinnati exchange from whom we obtain this information proceeds editorially to lament the control of the Cincinnati Council by party leaders.

The Maysville City Council comes in for much just criticism frequently but we can truthfully say with the Cleveland Civic League that "Party influence has not controlled Council action." We are of the opinion that not once since the election of the present Maysville City Council, has party politics had any influence whatever to do with actions of council and for this we should be thankful.

Unto the present City Council is due the credit for acting on all the many matters that come before them without the least hint of party politics playing even the slightest part. It should be such as every Councilman is elected independent of party affiliation and party politics should never be allowed to creep into city affairs.

ENOUGH FOOD, BUT DIVERTED

According to some reports, there is to be a big harvest of food stuffs in Russia this year, amply sufficient to feed the population if it is properly distributed. Improper distribution and conservation was one of the principal causes of the recent famine. The soviet government confiscated much of the food in the form of a tax, and a great deal of it was used to feed huge armies while the peasants who raised it were permitted to starve. The soviet theories of government are as destructive of agriculture as they are of any other private enterprise, and until they undergo a change the food problem in Russia will probably persist.

WAIT ON SHIPPING ACT

The Newport News Shipbuilding Company reports that it is negotiating to construct two 1,000-foot passenger liners, dependent upon the passage of the merchant marine bill. The news is but an indication of the vast field of enterprise that will be opened up to American industry when that bill becomes a law. Not only will American ship yards build the largest ships and more of them, but American ship operators will be able to keep the vessels in continuous and profitable commission. American manufacturers will be encouraged to seek greater foreign markets, knowing that they have a dependable merchant marine to carry their goods at reasonable rates.

HUGE PROFITS OF IMPORTERS

A New York newspaper carries an amusing editorial advocating the abolition of the straw hat. Yet that same paper, at the instigation of importers who support it with advertising has been raising an awful howl in condemnation of the pending tariff bill. It has been shown by unquestionable evidence that these same importers bring into this country English straw hats at a cost of 69 cents and sell them over their counters for \$4.00, or a profit of 479 per cent. What will the importers have to say to that paper for trying to kill their graft?

Pastor John Mullen's address on "Potential Man" at the union services on Sunday evening was one of the best sermons we have heard in many a day and the pastor deserves special commendation in his selection of such a subject for such a meeting. We are not criticizing, but it appears to us that much more good can be done by our present day preachers by dealing with such subjects in the manner adopted by Dr. Mullen in his Sunday evening talk.

If the government takes over and paves the Lexington road and the A. & P. Highway is paved to Cincinnati, many of us will be terribly tempted to purchase a Baby Lincoln.

Maysville has another carnival this week. Has anyone yet found any good thing these carnivals bring to a community. They take plenty of hard cash away.

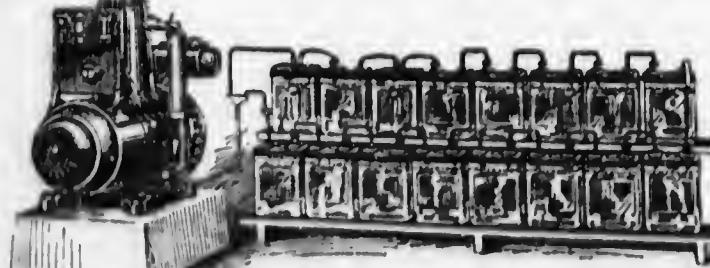

Now that The Hague conference has followed Genoa in failure, will European nations quit fooling and get down to sensible efforts to restore peace conditions?

The opening of Beechwood Park and the splendid tennis courts there has revived interest in the game of tennis, a clean and wholesome sport.

The local railroad strike was of very short duration. The boys heard the call of President Harahan and responded promptly.

The days for outings, picnics and camping have come and along with them poison ivy, chiggers and mosquitoes.

STOMACH WORMS CAUSE
DEATH OF MANY SHEEP.

Lexington, Ky. — Stomach worms this summer are causing heavy losses in many Kentucky sheep flocks, according to inquiries as to the best method of treatment which are being received at the College of Agriculture from farmers in different sections of the state. One farmer has reported the loss of a dozen lambs while another who wished to know what to do for the trouble stated that he not only had lost lambs but also ewes.

Although rotation of pastures is a preventive measure, drenching with copper sulphate, commonly known as bluestone, must be resorted to after the animals become infested with the worms, according to L. J. Horfacher, in charge of sheep work at the college. One-fourth of a pound of the pulverized material is dissolved in a pint of boiling water and enough water added to make three gallons. This is sufficient to drench 100 animals, each mature sheep being given three and one-half ounces or seven level teaspoonsfuls. Lambs receive half this amount. It is necessary to keep the sheep off feed for 12 hours before drenching and care also should be taken not to strangle them while the drench is being given.

Rotation of pastures has proved its value as a preventive measure in trials conducted on the Kentucky Agricultural Experiment Station farm. Whenever possible lambs and ewes

are changed to fresh pastures every two weeks from the first of June until lambs are marketed. It has been found that if the pastures are kept in good condition, the infestation will not be as serious as it is if the grass is kept crooked short.

Rape, oats, clover and vetch all make excellent crops for alternating with permanent bluegrass pasture. Lambs which are kept free from worms by preventive measures will be ready for market much earlier than those which are troubled with them.

New York Letter
by Lucy Jeanne Price

New York. — Dennis Shea has been

missing some of the night fires recently in the Long Island town where he serves on the volunteer fire corps. He has been one of the most regular and hardest workers at those which took place in the daytime, however, and when the matter of the seventeenth annual parade of the corps came up, it was decided that Mr. Shea

had a perfect right to be one of the marchers in spite of his occasional remissness when it came to getting out at night. This decision was based on the fact that Mr. Shea is no longer as young as the average fireman — volunteer or otherwise. In fact he has passed his ninety-first birthday and has served as a volunteer fireman for

seventy years. So it seemed as though a margin of clemency might be due him.

New York jewelers are dismayed — and even excited — over the duty on platinum provided in the amendment to the tariff bill introduced by Senator Peindexter. The United States Geological Survey reports practically no commercial production of platinum on the North American continent, and American manufacturers jewelers American manufacturing jewelers have always been dependent upon importations of that precious metal for the making of the jewelry sold both at home and for export trade. There

is already a duty on the jewelry itself, but because of the skill of our designers and workers, we have been able to import platinum, make it up and then export it to compete with goods manufactured abroad. It is nonsense, the interested parties declare, to talk about a "protective" tariff for something which doesn't exist in this country in large enough quantities to amount to anything. "Unless some one has found a platinum supply somewhere in the U. S. A. and let Senator Peindexter in on the secret, the whole thing is beyond us," one of their representatives said. It is nice to think of our lively things being worn up and down the boulevard in Paris, but the only platinum ornament I have been able to acquire is one my dentist thrust unwillingly upon me — and goodness knows, the cost of that impressed me enough!

There's just no counting on Nature. She chooses the most unexpected places and occasions in the world to assert her power. You'd never think if there were any place in which you would be removed from her vagaries it would be in such a one as the Cafe des Beaux Arts. But the other day, the diners were startled to see some tiles suddenly leap into the air from the middle of the floor and then a stream of water spout to the ceiling. Patrons and waiters were drenched. Of course, it was assumed a pipe was broken. But no. It was just that a spring had at one time gushed forth at the place and after all these years of stifling civilization had decided to gush once more.

Now pajamas are considerably closer to a man's regular clothes than is a bathing suit, surely. So after all, why should there have been such commotion when no bather appeared on the beach at Breezy Point last Sunday, attired in his best suit of that wear? He says he can't understand it, anyway. He wore them just because they do cover one so much better than a swimming costume, and while his motive was the avoidance of sunburn, he thinks it ought to meet equally well the respectability motive or the authorities. A soft white hat topped his costume and until the startled onlookers discovered what his clothes really were, they thought a Beau Brummel from Central America had come among them.

THE HOPE OF THE WORLD.

The war of 1914 laid half the nations of the world in the dust. Their homes, their industries, their peace must be restored by the rising generation. In them is the hope of the world.

To make motherhood easier, to secure for every baby a clean bill of health and a fair start in life—that is the problem.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for mothers and for future mothers. For fifty years this medicine has been used successfully in all non-surgical cases for women's diseases.

COLORED CITIZENS.

And Selznick News

Back to the Grain Fields for Health

GRAPENUTS is a regular "three bats full" of the best food qualities of whole wheat flour and malted barley, carefully mixed and slowly baked—

To develop all their appetizing flavor,

To preserve all their wholesomeness,

And to provide nature's "broom" that keeps the digestive system spick and span.

There's not a bit of artificial sweetening in Grape-Nuts—it just becomes sweet of its own accord in the long baking.

And that enticing flavor—how good it is with good milk or cream! Fruits, too, fresh or cooked, add to the delight of a dish of Grape-Nuts, morning, noon or sundown.

It is a compact, ready-to-eat food—no cooking needed. Why not try it for tomorrow's breakfast?

BASEBALL

CIGARMAKERS STRIKE HAS BEEN SETTLED.

The Lexington Herald has the following to say of John "Rasty" Wright who it seems has become dissatisfied with Winchester when interest in club sags and the management of the club may pass from Cynthiana sports to the hands of Winchester stock company. Wright before attaching his name to a Winchester contract at the early stage of the season desired to affiliate himself with the Cardinals but at that time an extra pitcher was not needed.

There was a rumor with broad foundations in Lexington yesterday that John ("Rasty") Wright of Irvine, formerly with the Winchester Dodgers, would be on the payroll of the Lexington team of the Bluegrass league within the next few weeks. Rasty, it is understood, has requested and received his release from the Winchester organization and there are strong hopes among local fans and players that the smoky pectoral will soon be seen at work on Devereaux field.

"So far as batting averages are concerned, Rasty is, perhaps, the most destructive twirler in the Bluegrass league. Lexington, especially, has nearly always been helpless before the youthful Estill county southpaw."

Winchester, Ky., July 25.—Formation of a stock company to buy the franchise of the Winchester club of the Bluegrass League from J. S. Bassett, of Cynthiana, was discussed at a meeting held at the Chamber of Commerce this morning. A temporary organization was formed, and another meeting was scheduled for Wednesday morning, at which it is hoped to work out plans for the new company.

W. B. Lindsey is president of the temporary organization, Woodson Moss vice president and Dallas Lawrence secretary and treasurer. The present plan is to have the company incorporated for \$3,000, selling 300 shares at \$10 apiece.

Mr. Bassett has expressed his willingness to dispose of the club.
